## Appendix 3A: Property Impact Tables

The tables in this appendix list the anticipated property impacts by impact category in this order:

- Table 3A-1, *Relocations* (pages 3A-2 to 3A-4)
- Table 3A-2, *Potential Relocations* (pages 3A-5 to 3A-9)
- Table 3A-3, *Full Acquisitions* (page 3A-10)
- Table 3A-4, *Partial Acquisitions* (pages 3A-11 to 3A-31)
- Table 3A-5, *Temporary Construction Easements* (pages 3A-32 to 3A-43)
- Table 3A-6, *Perpetual Easements* (pages 3A-44 to 3A-45)

Section 3.3.4.1, *Methodology*, includes the property impact assumptions for each of these categories. Figures showing the estimated impact for each property as a result of the Action Alternative and subarea options are shown in Appendix 3B, *Property Impact Figures*.

Parcel data from Davis and Salt Lake Counties were used to determine potential property impacts by option. The Counties' parcel data do not have complete property address information for the project area. Where the addresses are missing, the column is labeled with the parcel identification number and an approximate address. If more information is known about the area, it is included in the Notes column. The parcel data as maintained by the Counties do not always align well with the actual locations on the ground. For this reason, the property impact tables in this appendix should be considered an approximation only.
