RE: Project No. S-I157(369)309; I-15 600N to Farmington EIS, Salt Lake and Davis Counties, Utah (PIN 18857).  
**Area of Potential Effect Request for Concurrence**

Dear Mr. Hansen:

The Utah Department of Transportation (UDOT) is preparing to undertake the subject state-funded project. UDOT intends to prepare an environmental impact statement (EIS) and conduct necessary environmental studies to evaluate potential transportation solutions for the proposed project. In accordance with Parts 3.1.1 and 3.2 of the *Memorandum of Understanding Between the Federal Highway Administration and the Utah Department of Transportation Concerning State of Utah's Participation in the Surface Transportation Project Delivery Program Pursuant to 23 USC §327* (executed January 17, 2017), the UDOT assumes responsibility, assigned by the Federal Highway Administration (FHWA), for ensuring compliance with Section 106 of the NHPA and with Section 4(f) of the DOT Act of 1966, as amended. Also in accordance with the *Third Amended Programmatic Agreement among the FHWA, the Utah State Historic Preservation Officer, the Advisory Council on Historic Preservation, the USACE Sacramento District, and the UDOT Regarding Section 106 Implementation for Federal-Aid Transportation Projects in the State of Utah* (executed August 23, 2017), Section 106 of the National Historic Preservation Act of 1966, as amended (54 U.S.C. § 300101 et seq.), and U.C.A.9-8-404, UDOT has determined the identification level of effort and Area of Potential Effect (APE) and is seeking to consult with the Utah State Historic Preservation Office (SHPO) on this APE.

UDOT is preparing an EIS to replace aging infrastructure and improve mobility on I-15 between 600 South in Salt Lake City and the I-15/U.S. 89/Legacy Parkway interchange in Farmington. The EIS will also evaluate potential improvements to interchanges (600 South, I-80 West, 600 North, 1000 North, 2300 North, Beck Street/U.S. 89, 2600 South, 500 South, 400 North, Parrish Lane, 200 West, and I-15/U.S. 89/Legacy Parkway), local cross-streets, and connections to transit and cyclist/pedestrian facilities. The proposed study area (see the enclosed study area map) is the APE for this project.

The APE for cultural resources will include the proposed footprint of all active alternatives as well as all adjoining parcels (see attached map). The APE comprises approximately 20 linear miles along I-15 and includes all interchanges and feeder cross-streets. The mainline of I-15 has generally been previously surveyed, but larger areas around the interchanges have not. Approximately 20 archaeological sites have been previously documented within the APE and most are associated with linear site types. Although there have been few formal surveys for historic architecture in the APE, there are nearly a thousand documented buildings within the APE as well as portions of 5 historic districts (Salt Lake City Warehouse, Salt Lake City Northwest, Capitol Hill, West Bountiful, and Clark Lane).

An intensive-level archaeological inventory and a selective reconnaissance-level survey for historic architecture will be performed within the APE. Any cultural resources will be documented according to the *UDOT Guidelines for Identifying, Recording, and Evaluating Archaeological and Paleontological Resources (2010)*, the UPAC Linear Sites Guidelines, and the Reconnaissance-Level Survey Standard Operating Procedures. The archaeological survey will exclude areas of heavy disturbance and imported fill but revisit any previously documented sites within those areas (see attached map).

For the historic architecture survey, UDOT will set the threshold for historic architecture at 1980 to account for buildings that may achieve historic age prior to project construction in 2025. Properties originally documented within 10 years may be excluded from updated documentation, or included in the RLS as determined convenient by the consultant. Properties within historic districts will be documented, but the district nominations will not be updated. As several mobile home parks are located within the APE, they will be documented and evaluated as single properties, not individual trailer homes. Additional detail on these properties may be given in the survey report. Since these surveys will be conducted early in the project but impacts may not be known until the winter of 2022, documentation will comply with SHPO standards established at the time of survey. All survey reports and associated forms will be submitted to the SHPO with the Determination of Eligibility document.

Please review this document and please respond in writing if you concur with the APE and level of effort described herein. Should you have any questions or need additional information, please feel free to contact me at 801-910-2035 or [lizrobinson@utah.gov](mailto:lizrobinson@utah.gov).

Sincerely,

A handwritten signature in black ink that reads "Liz Robinson". The signature is written in a cursive, flowing style.

RE: PIN 18857\_I-15, 600N to Farmington\_S-I15-7(369)309

For future correspondence, please reference Case No. 21-2027

Dear Ms Robinson,

The Utah State Historic Preservation Office received your submission and request for our comment on the above-referenced undertaking on September 23, 2021.

We concur with your determination of the Area of Potential Effects for this undertaking. Given the complexity and scale of this project, UT-SHPO requests a kick-off meeting with UDOT and its architectural consultant before initiation of the historic building survey, to ensure all parties are on the same page when it comes to expectations.

This letter serves as our comment on the determinations you have made within the consultation process specified in §36CFR800.4. If you have questions, please contact me at 801-245-7263 or by email at [cmerritt@utah.gov](mailto:cmerritt@utah.gov).

Sincerely,

Christopher W. Merritt, Ph.D.  
State Historic Preservation Officer

RE: UDOT Project No. S-I157(369)309; I-15 600N to Farmington EIS, Salt Lake and Davis Counties, Utah (PIN 18857).

### **Determination of Eligibility**

Dear Mr. Hansen:

The Utah Department of Transportation (UDOT) is preparing to undertake the subject environmental impact statement (EIS). In accordance with Parts 3.1.1 and 3.2 of the *Memorandum of Understanding Between the Federal Highway Administration and the Utah Department of Transportation Concerning State of Utah's Participation in the Surface Transportation Project Delivery Program Pursuant to 23 USC §327* (renewed May 26, 2022), the UDOT assumes responsibility, assigned by the Federal Highway Administration (FHWA), for ensuring compliance with Section 106 of the NHPA and with Section 4(f) of the DOT Act of 1966, as amended. Also in accordance with the *Third Amended Programmatic Agreement among the FHWA, the Utah State Historic Preservation Officer, the Advisory Council on Historic Preservation, the USACE Sacramento District, and the UDOT Regarding Section 106 Implementation for Federal-Aid Transportation Projects in the State of Utah* (executed August 23, 2017), Section 106 of the National Historic Preservation Act of 1966, as amended (54 U.S.C. § 300101 et seq.), and U.C.A.9-8-404, the UDOT has taken into account the effects of this undertaking on historic properties and is affording the Utah State Historic Preservation Officer (SHPO) an opportunity to comment on the undertaking.

### **PROJECT DESCRIPTION**

UDOT is preparing an EIS to replace aging infrastructure and improve mobility on I-15 between 600 South in Salt Lake City and the I-15/U.S. 89/Legacy Parkway interchange in Farmington. The EIS will also evaluate potential improvements to interchanges (600 South, I-80 West, 600 North, 1000 North, 2300 North, Beck Street/U.S. 89, 2600 South, 500 South, 400 North, Parrish Lane, 200 West, and I-15/U.S. 89/Legacy Parkway), local cross-streets, and connections to transit and cyclist/pedestrian facilities. The proposed study area (see the enclosed study area map) is the APE for this project.

#### Project Alternatives

The project alternatives are divided between design concepts for the I-15 mainline and those for the interchanges which include pedestrian and bicyclist crossings. These concepts will be evaluated against two sets of criteria to screen those that will be carried forward into the EIS for additional analysis. Both categories of concepts have completed Level 1 screening for the way in which they meet the purpose and need of the project. Level 2 screening evaluates the concepts for being practicable and reasonable, including impacts to cultural resources. At this time, Level 2 screening

has not been conducted for the interchange concepts and therefore only the concepts that have advanced through Level 1 screening are presented here.

The I-15 mainline concepts include:

- Widen I-15 to 3 Express Lanes and 3-4 General Purpose (GP) Lanes
- Widen I-15 to 5 GP Lanes each direction and 2 Reversible Lanes
- Widen I-15 to 5 GP Lanes and 1 High-Occupancy Vehicle (HOV) Lanes
- Widen I-15 to 5 GP Lanes and 2 HOV Lanes
- Widen I-15 to 6 GP Lanes and 1 HOV Lane

The interchange concepts are grouped by geographic area and include:

- Salt Lake Area Concepts:
  - Collector-Distributor (CD) system at 600 North and Full Diamond interchange at 2100 North or
  - Single Point Urban Interchange (SPUI) interchange at 600 North and Full Diamond interchange at 1800 North.
- North Salt Lake and Woods Cross Concepts:
  - Rebuild the existing interchange at US-89/I-215 and Full Diamond interchange at 2600 South or
  - Rebuild the existing interchange at US-89/I-215 and a SPUI interchange design at 2600 South.
- Bountiful/West Bountiful Concepts:
  - Full Diamond interchange at 500 South and Half-Diamond interchange at 400 North/500 West or
  - Full Diamond interchange at 500 South and ¾ Diamond interchange at 400 North with NB on-ramp at 500 West.
  - CD system for 500 South/400 North with NB on-ramp at 500 West.
- Centerville Concepts:
  - Full Diamond interchange at Parrish Lane with NB connection to east frontage road or
  - SPUI interchange at Parrish Lane with NB connection to east frontage road
- Farmington Concepts:
  - Existing 200 West SB on-ramp and NB off-ramp
  - SPUI interchange at Glover's Lane
  - Full interchange at 200 West

Additional information about the project alternatives can be found at <https://i15eis.udot.utah.gov/study-materials-and-documents/>.

#### APE and Resource Surveys

The APE for cultural resources includes the proposed footprint of all active alternatives as well as all adjoining parcels. The APE comprises approximately 20 linear miles along I-15 and includes all interchanges and feeder cross-streets for approximately 4.35 sq.mi. (2790.17 ac.). The entire APE was evaluated for cultural resources, although only a subset of this area was formally surveyed due to recent previous surveys and disturbance from roadway construction.

The APE has been surveyed for archaeology by Horrocks Engineers, under two separate covers. First under State Antiquities Project Number U21HX0742, the results of which are reported in *A Cultural Resource Inventory for the I-15; 600 North to Farmington Environmental Impact Study*. Secondly, under State Antiquities Project Number U23HX0041, the results of which are reported in *A Cultural Inventory of Additional Areas for the I-15; 600 North to Farmington Environmental Impact Study* (see enclosed reports). An intensive-level pedestrian survey was conducted using 15 meter transects to identify archaeological resources, and areas that did not qualify for intensive-level survey were investigated at a reconnaissance level.

Several reconnaissance selective-level surveys were conducted to record architectural properties, and the results are reported in *Selective Reconnaissance Level Survey, I-15: Salt Lake City 600 North to Farmington, Salt Lake and Davis Counties* (see enclosed report). UDOT set the threshold for historic architecture in 1980 to account for buildings that may achieve historic age prior to project construction. Five historic districts are also present within the APE and while any member buildings were updated during the survey, UDOT did not revisit the district nomination itself.

The surveys have resulted in the identification of 19 archaeological sites and 682 architectural properties. Of these, 10 archaeological sites and 422 architectural properties are eligible to the National Register of Historic Places (NRHP). No known traditional cultural properties are in the APE.

This document reports on the NRHP eligibility of these resources, a separate Finding of Effect document will be submitted when the project impacts have been determined.

## ARCHAEOLOGICAL RESOURCES

The Determinations of Eligibility are provided in Table 1 for archaeological resources. A total of 20 archaeological sites were identified within the APE, 10 of which are eligible for the NRHP. However, usually due to reduced historical integrity, the portion of 4 of these sites within the APE have been designated as not contributing to the eligibility of the site as a whole.

Table 1. Determinations of Eligibility for Archaeological Resources

Site Number	Description	NRHP Eligibility
42DV2	Prehistoric Artifact Scatter	Eligible
42DV11	Prehistoric Lithic Scatter	Not Eligible
42DV70	Subsurface Artifact Scatter	Not Eligible
42DV86/42SL293	Denver & Rio Grande Western Railroad Grade	Eligible
42DV89	Historic Earthen Berms/Lake Shore Resort	Eligible
42DV87 / 42SL300	Union Pacific Railroad	Eligible
42DV93	Historic Trash Deposit	Eligible
42DV99	Historic Farmstead	Not Eligible
42DV104	Historic Camp	Not Eligible
42DV123	Historic Trash Deposit	Not Eligible
42DV124	Historic Artifact Scatter	Not Eligible
42DV126/42SL489	Historic Oil Drain	Eligible but non-contributing
42DV165	Clark Lane Diversion Dam	Not Eligible
42DV166	Historic Bridge	Not Eligible
42DV180	Historic Power line	Not Eligible
42DV187	Historic Golf Course	Eligible

42DV197/42SL513	Historic Sewage Canal	Eligible but non-contributing
42SL19	Prehistoric Rockshelter & Lithic Scatter	Not Eligible
42SL718	Historic Railroad Repair Yard	Eligible but non-contributing
42SL729	Historic Trolley Line	Eligible but non-contributing

## ARCHITECTURAL PROPERTIES

The Determinations of Eligibility are provided in Table 2 for architectural properties. A total of 682 architectural properties were identified within the APE, 422 of which are eligible for the NRHP.

Address	City	Date	Style/Plan Type	NRHP Eligibility

**CONSULTATION EFFORTS**

Native American consultation was initiated through letters sent to the Ute Indian Tribe of the Uintah and Ouray Reservation, Shoshone-Bannock Tribes, Eastern Shoshone Tribe of the Wind River Reservation, Northwestern Band of Shoshone Nation, Confederated Tribes of the Goshute Reservation, Skull Valley Band of Goshute (sent March 18, 2022). Consultation letters were also sent to the Salt Lake Certified Local Government representatives for Bountiful City, Centerville City, Farmington City, Salt Lake County, Salt Lake City; Preservation Utah; the Clark Lane Historical Preservation Association; and the Utah Professional Archaeological Council (sent March 18, 2022). Of these, the Centerville, Salt Lake County and Clark Lane Historical Preservation Association responded with a desire to participate as a consulting party under 36 CFR 800.3. These parties will be afforded an opportunity to comment on the determinations of eligibility described in this document.

Open house-style public meetings have been held during the NEPA scoping and alternatives development stages. Additional public meetings and notifications will be scheduled when the draft EIS is released, which will describe any effects to historic properties.

**SUMMARY**

To summarize, UDOT has determined that 10 archaeological sites within the APE for this project are eligible for the NRHP. The portion of 4 of these sites within the APE have been designated as not contributing to the eligibility of the site as a whole. UDOT has also determined that 422 architectural properties within the APE for this project are eligible for the NRHP.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried out by UDOT pursuant to 23 USC §327 and a Memorandum of Understanding dated January 17, 2017, and executed by FHWA and UDOT.

Please review this document and, providing you agree with the findings contained herein, provide written concurrence. Should you have any questions or need additional information, please feel free to contact Liz Robinson at 801-910-2035 or lizrobinson@utah.gov

Sincerely,

Liz Robinson, M.A., RPA

RE: PIN 18857\_I-15 600N-Farmington EIS

For future correspondence, please reference Case No. 23-0339

Dear Ms. Robinson,

The Utah State Historic Preservation Office received your submission and request for our comment on the above-referenced project on March 17, 2023. Based on the information provided to our office, we offer the following comments on the DOE:

We concur with your determinations of eligibility for the archaeological resources and the architectural properties, with the following two exceptions:

- 1) 367 W. State Street, Farmington (Hyrum Don Carlos and Anne Clark House): Although the property has been altered, it is the Utah SHPO's opinion that it retains enough integrity to be considered a contributing resource within the Farmington Clark Lane Historic District.
- 2) 575 N. Pugsley Street, Salt Lake City: The building is currently listed as a contributing resource within the Capitol Hill Historic District, and was last surveyed in 2019, it is the Utah SHPO's opinion that the 2019 Eligible rating is still applicable.

Also, were features such as bridges, ditches, culverts, etc. taken into consideration as part of the architectural surveys, especially within the existing historic districts?

We appreciate your efforts of taking historic properties into account as you plan this undertaking. This information is provided to assist with Section 106 responsibilities as per §36CFR800. If you have questions, please contact me at (801) 245-7239 or by email at [clhansen@utah.gov](mailto:clhansen@utah.gov).

Sincerely,

Christopher Hansen  
Preservation Planner/Utah SHPO

RE: UDOT Project No. S-I157(369)309; I-15 600N to Farmington EIS, Salt Lake and Davis Counties, Utah (PIN 18857).  
**Finding of Adverse Effect**

Dear Mr. Hansen:

The Utah Department of Transportation (UDOT) is preparing to undertake the subject environmental impact statement (EIS). In accordance with Parts 3.1.1 and 3.2 of the *Memorandum of Understanding Between the Federal Highway Administration and the Utah Department of Transportation Concerning State of Utah's Participation in the Surface Transportation Project Delivery Program Pursuant to 23 USC §327* (renewed May 26, 2022), the UDOT assumes responsibility, assigned by the Federal Highway Administration (FHWA), for ensuring compliance with Section 106 of the NHPA and with Section 4(f) of the DOT Act of 1966, as amended. Also in accordance with the *Third Amended Programmatic Agreement among the FHWA, the Utah State Historic Preservation Officer, the Advisory Council on Historic Preservation, the USACE Sacramento District, and the UDOT Regarding Section 106 Implementation for Federal-Aid Transportation Projects in the State of Utah* (executed August 23, 2017), Section 106 of the National Historic Preservation Act of 1966, as amended (54 U.S.C. § 300101 et seq.), and U.C.A.9-8-404, the UDOT has taken into account the effects of this undertaking on historic properties and is affording the Utah State Historic Preservation Officer (SHPO) an opportunity to comment on the undertaking.

### PROJECT DESCRIPTION

UDOT is preparing an EIS to replace aging infrastructure and improve mobility on I-15 between 600 South in Salt Lake City and the I-15/U.S. 89/Legacy Parkway interchange in Farmington. The EIS will also evaluate potential improvements to interchanges (600 South, I-80 West, 600 North, 1000 North, 2300 North, Beck Street/U.S. 89, 2600 South, 500 South, 400 North, Parrish Lane, 200 West, and I-15/U.S. 89/Legacy Parkway), local cross-streets, and connections to transit and cyclist/pedestrian facilities. The proposed study area is the APE for this project.

UDOT previously consulted with the SHPO on the determination of eligibility (DOE) for architectural and archaeological resources. SHPO provided conditional concurrence on March 22, 2023 (Case No. 23-0339). This document is provided as consultation on the finding of effect for historic properties within the APE as well as reporting on limited additional surveys.

### Project Alternatives

The Action Alternative includes the five general-purpose lane and one high-occupancy/toll lane mainline concept combined with the concepts for each of the five geographic areas that passed Level 1 and Level 2 screening. The Action Alternative also includes the following subarea options:

- Farmington 400 West Option
- Farmington State Street Option
- Bountiful 400 North – Northern Option
- Bountiful 400 North – Southern Option
- Bountiful 500 South – Northern Option
- Bountiful 500 South – Southern Option
- Salt Lake City 1000 North – Northern Option
- Salt Lake City 1000 North – Southern Option

Additional information about the project alternatives can be found at: <https://i15eis.udot.utah.gov/study-materials-and-documents/>.

### APE and Resource Surveys

The APE for cultural resources includes the proposed footprint of all active alternatives as well as all adjoining parcels. The entire APE was evaluated for cultural resources, as reported in the DOE document. As the project alternatives continue to be refined, additional surveys were conducted for small areas outside of the APE and are reported here. The additional archaeological survey was conducted by Horrocks Engineers under State Antiquities Project Number U23HX0372, the results of which are reported in *Supplementary Areas for the I-15; 600 North to Farmington Environmental Impact Study*. An intensive-level pedestrian survey was conducted using 15 meter transects to identify archaeological resources, and areas that did not qualify for intensive-level survey were investigated at a reconnaissance level. Two archaeological sites were identified (42DV99 and 42DV87/42SL300), which were previously reported in the DOE, and only 42DV87/42SL300 was updated with additional segments of the railroad. No properties with historic architecture were identified in these additional survey areas.

Project impacts to archaeological sites are described in Table 1 and impacts to properties of historic architecture are described in Table 2. Only properties that are eligible for the NRHP are listed; all sites and buildings that have been determined as not eligible to the NRHP have been determined to have a finding of No Historic Properties Affected.

In response to this project’s DOE document sent on March 17, 2023 (Case No. 23-0339), UDOT was asked by Utah’s State Historic Preservation Office to change determinations of National Register eligibility from “ineligible” to “eligible” for the following two properties:

1. 367 W. State Street, Farmington (Hyrum Don Carlos and Anne Clark House)
2. 575 N. Pugsley Street, Salt Lake City

In response to this request, UDOT made these determination changes. UDOT was also asked to verify that bridges, ditches, culverts and other similar features found within this project’s APE were properly documented. Additional surveys described above were conducted to ensure these features’ documentation.

### **ARCHAEOLOGICAL RESOURCES**

A total of 20 archaeological sites were identified within the APE, 10 of which are eligible for the NRHP (Table 1). However, usually due to reduced historical integrity, a portion of 4 of these sites within the APE have been designated as not contributing to the eligibility of the site as a whole. Three sites (42DV86/42SL293, 42DV87/42SL300, and 42SL729) will be impacted by every alternative and the project was found to have No Adverse Effect.

### **ARCHITECTURAL PROPERTIES**

A historic structures survey conducted for the I-15 project identified previously documented buildings and structures as well as other buildings and structures that could be eligible for listing in the NRHP. Fifty-six of the 328 previously documented buildings and structures had been demolished. Ultimately, 433 structures in the APE were determined to be eligible for listing in the NRHP. Of these, 381 structures are recommended as eligible/contributing (EC) and 52

structures are recommended as eligible/significant (ES) under the Utah Division of State History's rating system. To summarize the project impacts on historic structures:

#### North Segment Impacts

- The impacts to architectural resources in the north segment would be the same for both the Farmington 400 West Option and the Farmington State Street Option. Both of these options would have an adverse effect on one architectural resource (399 W. State Street in Farmington) and would have no adverse effect on 7 architectural resources. The adverse effect on 399 W. State Street in Farmington and the potential loss of trees on State Street east of 400 West would also be considered an adverse effect on the Clark Lane Historical District.

#### North Central Segment Impacts

- Bountiful 400 North – Northern Option Impacts. This option would have an adverse effect on 444 West 400 North in Bountiful and would have no adverse effect on 13 architectural resources.
- Bountiful 400 North – Southern Option Impacts. This option would have an adverse effect on 433 West 400 North in Bountiful and would have no adverse effect on 13 architectural resources.

#### South Central Segment Impacts

- Bountiful 500 South – Northern Option Impacts. This option would have no adverse effect on 15 architectural resources.
- Bountiful 500 South – Southern Option Impacts. This option would have an adverse effect on 453 West 500 South in Bountiful and would have no adverse effect on 14 architectural resources.

#### South Segment Impacts

- The impacts to architectural resources in the south segment would be the same for both the Salt Lake City 1000 North – Northern Option and the Salt Lake City 1000 North – Southern Option. Both of these options would have an adverse effect on two architectural resources (U.S. Bank at 1090 North 500 East in North Salt Lake and a Quonset hut at 825 N. Warm Springs Road in Salt Lake City) and would have no adverse effect on 70 architectural resources.

## SECTION 4(f) EVALUATION

Under Section 4(f), use of a historic property includes permanent incorporation of land into a transportation facility, temporary uses, or constructive uses (i.e., severe proximity impacts). Uses that result in minor impacts without adverse effects are considered to have a *de minimis* impact. *De minimis* impacts are generally small amounts of property acquisition to accommodate project elements without affecting the significant elements of a Section 4(f) property. Uses that result in greater than *de minimis* impacts result in adverse effects to the activities, features, or attributes qualifying a property for protection under Section 4(f). This level of effect is often the result of full property acquisition and demolition of the significant historic features at the property.

However, some temporary impacts to properties are so minimal as to not constitute a use within the meaning of Section 4(f) when the scope of the work is minor and the magnitude of the changes to the Section 4(f) property are minimal. The land would also need to be fully restored to a condition at least as good as that which existed prior to the project. These temporary occupancies are generally the result of temporary construction easements (TCEs) which are utilized for minor actions such as re-grading landscaping to match the new roadway elevation or re-establishing an access point after roadway widening.

The project will result in a use of Section 4(f) resources resulting in a *de minimis* impact of up to 3 archaeological sites and 44 buildings, up to 7 impacts greater than *de minimis* and a temporary occupancy finding for up to 61 buildings as outlined in Table 3. An individual Section 4(f) evaluation is being prepared and will be included with the environmental document prepared for this project. The evaluation discusses the impact by the action alternative and measures taken to minimize harm to the Section 4(f) properties. This information is summarized below. A copy of the Section 4(f) evaluation will be provided upon request.

Table 3. Summary of Section 4(f) Impact by Build Alternative Options

Segment/Option		No Use/ Temporary Occupancy	Use/ <i>De minimis</i>	Use/ Greater than <i>De minimis</i>
North	Farmington 400 West Option	0 sites 6 buildings	1 site 1 building	0 sites 1 building 1 district
	Farmington State Street Option	0 sites 6 buildings	1 site 1 building	0 sites 1 building 1 district
North Central	Bountiful 400 North – Northern Option	0 sites 4 buildings	1 site 9 buildings	0 sites 1 building
	Bountiful 400 North – Southern Option	0 sites 4 buildings	1 site 9 buildings	0 sites 1 building
South Central	Bountiful 500 South – Northern Option	0 sites 9 buildings	0 sites 6 buildings	0 sites 1 building
	Bountiful 500 South – Southern Option	0 sites 9 buildings	0 sites 5 buildings	0 sites 2 buildings
South	Salt Lake City 1000 North – Northern Option	0 sites 42 buildings	3 sites 28 buildings	0 sites 2 buildings
	Salt Lake City 1000 North – Southern Option	0 sites 42 buildings	3 sites 28 buildings	0 sites 2 buildings

## CONSULTATION EFFORTS

Native American consultation was initiated through letters sent to the Ute Indian Tribe of the Uintah and Ouray Reservation, Shoshone-Bannock Tribes, Eastern Shoshone Tribe of the Wind River Reservation, Northwestern Band of Shoshone Nation, Confederated Tribes of the Goshute Reservation, Skull Valley Band of Goshute (sent March 18, 2022). To date, no tribes have responded to this notice. Other participating consulting parties include the Centerville CLG, Salt Lake County CLG and Clark Lane Historical Preservation Association. These parties provided an opportunity to comment on the determinations of eligibility described in this document.

Open house-style public meetings have been held during the NEPA scoping and alternatives development stages. Additional public meetings and notifications will be scheduled when the draft EIS is released, which will describe effects to historic properties.

## SUMMARY

UDOT has determined that 10 archaeological sites within the APE for this project are eligible for the NRHP. Of these 10 archeological sites, 7 are determined to be No Historic Properties Affected and 3 to be No Adverse Effect with Section 4(f) use and *de minimis* impact.

UDOT has further determined that 433 architectural properties within the APE for this project are eligible for the NRHP. All action alternatives require the partial acquisition of properties eligible for the NRHP resulting in a finding of Adverse Effect and a Section 4(f) use with greater than *de minimis* impacts.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried out by UDOT pursuant to 23 USC §327 and a Memorandum of Understanding dated January 17, 2017, and executed by FHWA and UDOT.

Please review this document and, providing you agree with the findings contained herein, provide written concurrence. Should you have any questions or need additional information, please feel free to contact Liz Robinson at 801-910-2035 / lizrobinson@utah.gov.

Sincerely,

Liz Robinson, M.A., RPA

Table 1. Findings of Effect for Archeological Resources

Site Number(s)	Site Name	NRHP Evaluation	Section 106 Finding of Effect	Section 4(f) Use/Impact	Nature of Impact	Option(s)
42DV2	Prehistoric Artifact Scatter	Eligible (Criterion D)	No historic properties affected	None	None	N/A
42DV86/42SL293 (Figure 22)	Denver & Rio Grande Western Railroad	Eligible (Criterion A)	No adverse effect	Use / <i>De minimis</i>	<p>The Action Alternative would have four grade-separated crossings (roads over the railroad tracks). These four grade-separated crossings include reconstruction of two existing crossings (southbound to westbound ramp and eastbound to northbound ramp) and construction of two new crossings (a new westbound connection to I-215 from U.S. 89 and a new eastbound connection from I-215 to U.S. 89). The existing bridges at these crossings are not historic.</p> <p>The reconstructed bridges will have support columns located in the existing locations or elsewhere within the ROW but at least 25 feet from the centerline of the nearest track. The new bridges require one new support column within the ROW but also at least 25 feet from the centerline of the nearest track. No other railroad related features are present in these locations.</p>	Salt Lake City 1000 North – Northern and Southern Options
42DV89	Historic Earthen Berms/Lake Shore Resort	Eligible (Criterion A)	No historic properties affected	None	None	N/A

Site Number(s)	Site Name	NRHP Evaluation	Section 106 Finding of Effect	Section 4(f) Use/Impact	Nature of Impact	Option(s)
42DV87/42SL300 (Figures 1A, 1B, 3, 4, 5, 6, 7A, 7B, 20, 22, 23, 25, and 30)	Union Pacific Railroad	Eligible (Criteria A, B, and C)	No adverse effect	Use/de minimis	<p>The Action Alternative would have the following crossings of the Union Pacific Railroad:</p> <ul style="list-style-type: none"> <li>Reconstruction of 9 existing grade-separated crossings (road over the railroad tracks). Crossing locations are at State Street in Farmington, Glovers Lane in Farmington, Parrish Lane in Centerville, 400 North in Bountiful, I-215 in North Salt Lake (SB to WB ramp and EB to NB ramp), 2300 North in Salt Lake City, 600 North in Salt Lake City, and South Temple Street.</li> <li>Construction of two new grade-separated shared-use path crossings (shared-use path over the railroad tracks) at the Centerville Community Park and at 200 North in Centerville.</li> <li>Reconstruction of two existing at-grade road and shared-use path crossing at Pages Lane in Centerville and Center Street in North Salt Lake</li> <li>Construction of three new grade-separated road crossings (road over the railroad tracks) at I-215 (a new westbound connection to I-215 from U.S. 89 and a new eastbound connection from I-215 to U.S. 89) and at 2100 North in Salt Lake City.</li> <li>Construction of four underground drainage crossings (drainage pipes under the railroad tracks), at Lund Lane, 1825 North, 1175 North, and Chase Lane in Centerville.</li> </ul> <p>All of these crossings would be considered no adverse effect because the railroad alignment and the historic integrity of the railroad would not be changed as a result of the road or drainage crossings.</p>	<p>Farmington 400 West and Farmington State Street Options</p> <p>Bountiful 400 North – Northern and Southern Options</p> <p>Salt Lake City 1000 North – Northern and Southern Options</p>
42DV93	Historic Trash Deposit	Eligible (Criterion D)	No historic properties affected	None	None	N/A
42DV126/42SL489	Historic Oil Drain	Eligible but not contributing (Criterion A)	No historic properties affected	None	None	N/A
42DV187	Historic Oakridge Golf Course	Eligible (Criterion A)	No historic properties affected	None	None	N/A

Site Number(s)	Site Name	NRHP Evaluation	Section 106 Finding of Effect	Section 4(f) Use/Impact	Nature of Impact	Option(s)
42DV197/42SL513	Historic Sewage Canal	Eligible but not contributing (Criterion A)	No historic properties affected	None	None	N/A
42SL718	Denver & Rio Grande Western Historic Railroad Repair Yard	Eligible but not contributing (Criteria A, C, and D)	No historic properties affected	None	None	N/A
42SL729 (Figure 33)	Historic Trolley Line	Eligible but not contributing (Criterion A)	No adverse effect	Use/ <i>de minimis</i>	The Action Alternative would reconstruct the existing I-15 grade-separated crossing over the historic trolley line near 200 South in Salt Lake City.	Salt Lake City 1000 North – Northern and Southern Options

Table 2. Findings of Effect for Architectural Resources

Address and Figure Reference	City	Evaluation	Section 106 Finding of Effect	Section 4(f) Use/Impact	Nature of Impact	Option(s)
<b>Adverse Effects</b>						
399 W. State Street (Figures 2A and 2B)	Farmington	Eligible/contributing	Adverse	Use / Greater than <i>De minimis</i>	Property relocation and adverse effect on Clark Lane Historic District	Farmington 400 West and Farmington State Street Options
Clark Lane Historic District (Figures 1A, 1B, 2A, and 2B)	Farmington	Eligible/contributing	Adverse	Use / Greater than <i>De minimis</i>	Property relocation of 399 W. State Street and removal of trees on State Street.	Farmington 400 West and Farmington State Street Options
444 West 400 North (Figures 8A and 8B)	Bountiful	Eligible/contributing	Adverse	Use / Greater than <i>De minimis</i>	Potential relocation.	Bountiful 400 North – Northern Option
			No adverse effect	Use / <i>De minimis</i>	Partial acquisition; no contributing features would be affected.	Bountiful 400 North – Southern Option
433 West 400 North (Figures 8A and 8B)	Bountiful	Eligible/contributing	Adverse	Use / Greater than <i>De minimis</i>	Property relocation.	Bountiful 400 North – Southern Option
			No adverse effect	Use / <i>De minimis</i>	Partial acquisition; no contributing features would be affected.	Bountiful 400 North – Northern Option
453 West 500 South (Figures 10A and 10B)	Bountiful	Eligible/contributing	Adverse	Use / Greater than <i>De minimis</i>	Property relocation.	Bountiful 500 South – Southern Option
			No adverse effect	Use / <i>De minimis</i>	Partial acquisition; no contributing features would be affected.	Bountiful 500 South – Northern Option
409 South 500 West (Figures 10A and 10B)	Bountiful	Eligible/contributing	Adverse	Use / Greater than <i>De minimis</i>	Strip impact on west edge of property would impact overhead sign and parking on west side of the building.	Bountiful 500 South – Northern and Southern Options
1090 North 500 East (Figure 15)	North Salt Lake	Eligible/contributing	Adverse	Use / Greater than <i>De minimis</i>	Business might be purchased and relocated due to impacts to drive-thru and parking area. If UDOT purchases and resells the historic structure, the impact would be considered adverse.	Salt Lake City 1000 North – Northern and Southern Options
825 N. Warm Springs Road (Figures 28A and 28B)	Salt Lake City	Eligible/contributing	Adverse	Use / Greater than <i>De minimis</i>	Demolition and removal of historic structure.	Salt Lake City 1000 North – Northern and Southern Options

Address and Figure Reference	City	Evaluation	Section 106 Finding of Effect	Section 4(f) Use/Impact	Nature of Impact	Option(s)
<b>No adverse effects</b>						
335 W. State Street (Figures 1A and 1B)	Farmington	Eligible/contributing	No adverse effect	No Use / Temporary Occupancy	Temporary construction easement on north edge of property and possible impacts to landscaping.	Farmington 400 West and Farmington State Street Options
340 W. State Street (Figures 1A and 1B)	Farmington	Eligible/contributing	No adverse effect	No Use / Temporary Occupancy	Temporary construction easement on south edge of property and possible impacts to landscaping.	Farmington 400 West and Farmington State Street Options
367 W. State Street (Figures 2A and 2B)	Farmington	Eligible/contributing	No adverse effect	No Use / Temporary Occupancy	Temporary construction easement on north edge of property.	Farmington 400 West and Farmington State Street Options
368 W. State Street (Figures 1A and 1B)	Farmington	Eligible/contributing	No adverse effect	No Use / Temporary Occupancy	Temporary construction easement on south edge of property and possible impacts to landscaping.	Farmington 400 West and Farmington State Street Options
375 N. Lagoon Drive (Figures 1A and 1B)	Farmington	Eligible/contributing	No adverse effect	Use / <i>De minimis</i>	Strip impacts on west edge of property; no contributing features would be affected.	Farmington 400 West and Farmington State Street Options
382 W. State Street (Figures 1A and 1B)	Farmington	Eligible/contributing	No adverse effect	No Use / Temporary Occupancy	Temporary construction easement on south edge of property and possible impacts to landscaping.	Farmington 400 West and Farmington State Street Options
398 W. State Street (Figures 1A and 1B)	Farmington	Eligible/contributing	No adverse effect	No Use / Temporary Occupancy	Temporary construction easement on west and south edges of property and possible impacts to landscaping.	Farmington 400 West and Farmington State Street Options
1435 North 400 West (Figure 6)	Bountiful	Eligible/contributing	No adverse effect	Use / <i>De minimis</i>	Partial acquisition on west edge of attached back parcel; no contributing features would be affected.	Bountiful 400 North – Northern and Southern Options
1453 North 400 West (Figure 6)	Bountiful	Eligible/contributing	No adverse effect	No Use / Temporary Occupancy	Temporary construction easement on west edge of parcel; no contributing features would be affected.	Bountiful 400 North – Northern and Southern Options
1469 North 400 West (Figure 6)	Bountiful	Eligible/contributing	No adverse effect	No Use / Temporary Occupancy	Temporary construction easement on west edge of attached back parcel; no contributing features would be affected.	Bountiful 400 North – Northern and Southern Options
1489 North 400 West (Figure 6)	Bountiful	Eligible/contributing	No adverse effect	No Use / Temporary Occupancy	Temporary construction easement on west edge of attached back parcel; no contributing features would be affected.	Bountiful 400 North – Northern and Southern Options

RE: PIN 18857\_ I-15 Davis County FOE

For future correspondence, please reference Case No. 23-1647

Dear Ms Robinson,

The Utah State Historic Preservation Office received your submission and request for our comment on the above-referenced undertaking on July 25, 2023.

We concur with your determinations of eligibility and effect for this undertaking.

This letter serves as our comment on the determinations you have made within the consultation process specified in §36CFR800.4. If you have questions, please contact me by email at [rmcgrath@utah.gov](mailto:rmcgrath@utah.gov).

Sincerely,

Ryan McGrath  
Archaeologist

**MEMORANDUM OF AGREEMENT  
AMONG  
THE UTAH STATE HISTORIC PRESERVATION OFFICER  
AND THE UTAH DEPARTMENT OF TRANSPORTATION**

**REGARDING**

**PROJECT #: S-I15 7(369)309;  
I-15 Improvements, 600N to Farmington, Salt Lake and Davis Counties, Utah**

**WHEREAS**, the Utah Department of Transportation (UDOT), proposes to undertake **PROJECT #: S-I15 7(369)309; I-15 Improvements, 600N to Farmington, Salt Lake and Davis Counties, Utah**, which will improve mobility on I-15 from 600 North in Salt Lake City to Farmington City; and

**WHEREAS**, in accordance with Parts 3.1.1 and 3.2 of the *Memorandum of Understanding Between the Federal Highway Administration and the Utah Department of Transportation Concerning State of Utah's Participation in the Surface Transportation Project Delivery Program Pursuant to 23 USC §327* (renewed May 26, 2022), the UDOT assumes responsibility, assigned by the Federal Highway Administration (UDOT), for ensuring compliance with Section 106 of the NHPA and with Section 4(f) of the DOT Act of 1966, as amended; and

**WHEREAS**, the UDOT taken into account the effects of **PROJECT #: S-I15 7(369)309; I-15 Improvements, 600N to Farmington, Salt Lake and Davis Counties, Utah**, on historic properties and has determined that this undertaking will have an adverse effect on five architectural properties eligible for inclusion in the National Register of Historic Places. These National Register-eligible properties are as follows:

- Clark Lane Historic District, Farmington
- 399 W. State St., Farmington
- 409 S. 500 West, Bountiful
- 1090 N. 500 East, North Salt Lake
- 825 N. Warm Springs Rd., Salt Lake City

UDOT has consulted with the Utah State Historic Preservation Officer (SHPO) pursuant to 36 CFR Part 800, regulations implementing Section 106 of the National Historic Preservation Act (16 U.S.C. 470f); and

**WHEREAS**, in accordance with 36 CFR 800.6(a)(1), the UDOT has notified the Advisory Council on Historic Preservation (Council) of its adverse effect determination with specified documentation and the Council has chosen not to participate in the consultation pursuant to 36 CFR 800.6(a)(1)(iii); and

**WHEREAS**, the UDOT has consulted with the Eastern Shoshone Tribe of the Wind River Reservation, the Shoshone-Bannock Tribes of Fort Hall, the Paiute Indian Tribe of Utah, the Northwestern Band of the Shoshone Nation, the Uintah and Ouray Ute Indian Reservation, Skull Valley Band of the Goshute Indians, and the Confederated Tribes of the Goshute Reservation; and the Tribes have been afforded an opportunity to review the project and have not responded with objections; and

**WHEREAS**, the UDOT has consulted with Certified Local Government representatives for Bountiful City, Centerville City, Farmington City, Salt Lake County, Salt Lake City; Preservation Utah; the Clark Lane Historical Preservation Association; and the Utah Professional Archaeological Council. Of these, the Centerville CLG, Salt Lake County CLG, Farmington CLG and Clark Lane Historical Preservation Association have participated in the development of this Agreement; and

**NOW, THEREFORE,** the UDOT and the Utah SHPO agree that upon UDOT's decision to proceed with the undertaking, UDOT shall ensure that the following stipulations are implemented in order to take into account the effects of the undertaking on historic properties, and the stipulations shall govern the undertaking and all of its parts until this MOA expires or is terminated.

## **STIPULATIONS**

The UDOT shall ensure that the following measures are carried out:

### **I. MITIGATION OF HISTORIC PROPERTIES**

A. UDOT shall be responsible for the documentation of the following buildings:

- 399 W. State St., Farmington
- 409 S. 500 West, Bountiful
- 1090 N. 500 East, North Salt Lake
- 825 N. Warm Springs Rd., Salt Lake City

The buildings will be documented according to the Utah State Intensive Level Survey Standards (ILS) as required by SHPO. Documentation will include completed Historic Site Forms, which will be based partly on title searches and obituary research, photographs of the exterior of the buildings, a sketch map of the property layout, aerial photograph maps indicating the location of the buildings, and a U.S. Geological Survey map (scale: 1:24,000) indicating the location of the buildings.

- B. UDOT shall be responsible for developing an addendum to the Farmington Main Street Historic District nomination. This addendum will include properties located between the Main Street and Clark Lane Historic Districts along State Street from Main Street to 200 West. The addendum will include a Reconnaissance Level Survey (RLS) of the properties to be added to the district, research to determine significance, and completion of the National Register of Historic Places nomination form.
- C. UDOT will contribute \$8,000 to the Farmington Historical Museum to support digitization, archival, and exhibit efforts. Digitization may include scanning documentation of historic properties within the historic districts, family histories, or photographs and the archival digital storage of these documents.
- D. All trees along Farmington State Street and within the Clark Lane National Register District removed as part of the I-15 expansion will be replanted by UDOT.

**II. REPORTING:** The UDOT shall ensure that any/all reports on activities carried out pursuant to this agreement are provided to the SHPO, the Council, the signatories to this MOA, and upon request, to any other interested parties.

**III. PERSONNEL QUALIFICATIONS:** The UDOT shall ensure that all historic work carried out pursuant to this agreement is completed by or under the direct supervision of a person or persons meeting or exceeding the Secretary of the Interior's Historic Preservation Professional Qualification Standards for History (36 CFR 61 Appendix A).

**IV. DURATION:** This agreement will be null and void if its terms are not carried out within ten (10) years from the date of its execution. Prior to such time, the UDOT may consult with the other signatories to reconsider the terms of the agreement and amend it in accordance with Stipulation VII below.

**V. DISCOVERY:** The following measures regarding inadvertent discoveries of historic properties, archaeological sites, and paleontological resources will be implemented:

- A. In accordance with Stipulation XI.B of the *Third Amended Programmatic Agreement among the UDOT, the Utah State Historic Preservation Officer, the Advisory Council on Historic Preservation, the USACE Sacramento District, and the UDOT Regarding Section 106 Implementation for Federal-Aid Transportation Projects in the State of Utah* (executed August 23, 2017), and pursuant to 36 CFR 800.13(b), the UDOT and the UDOT are providing for the protection, evaluation, and treatment of any historic property discovered prior to or during construction. Should a discovery occur, construction will stop immediately and the UDOT and the UDOT will consult with the SHPO, Native American tribes, and any other identified interested parties, toward developing and implementing an appropriate treatment plan prior to resuming construction. If neither the SHPO nor a Tribe file an objection within 72 hours to UDOT's plan for addressing the discovery, UDOT may carry out the requirements of 36 CFR 800.13 on behalf of FHWA, and the Council does not need to be notified.
- B. UDOT Standard Specifications Section 01355, Part 1.13, Discovery of Historical, Archaeological or Paleontological Objects, Features, Sites, or Human Remains, will be enforced during this project. This specification stipulates procedures to be followed should any archaeological, historic, or paleontological resources be discovered during construction of the project. These procedures are as follows:
  - 1) Immediately suspend construction operations in the vicinity of the discovery if a suspected historic, archeological or paleontological item, feature, or site is encountered or if suspected human remains or encountered.
  - 2) Verbally notify the engineer of the nature and exact location of the findings.
  - 3) The Engineer contacts the UDOT region staff archaeologist, who will assess the nature of the discovery and determine the necessary course of action.
  - 4) Protect the discovered objects or features and provide written confirmation of the discovery to the Engineer within two calendar days.
  - 5) The Engineer keeps the Contractor informed concerning the status of the restriction:
    - 1) the time necessary for the Department to handle the discovered item, feature, or site is variable, dependent on the nature and condition of the discovered item; and
    - 2) the Engineer will provide written confirmation when work may resume in the area.

**VI. DISPUTE RESOLUTION:** Should any party to this agreement object at any time to any actions proposed or the manner in which the terms of this MOA are implemented, the UDOT shall consult with the objecting parties to resolve the objection. If the UDOT determines, within 30 days, that the objection(s) cannot be resolved, the UDOT will:

- A. Forward all documentation relevant to the dispute to the Council in accordance with 36 CFR 800.2(b)(2). Upon receipt of adequate documentation, the Council shall review and advise the UDOT on the resolution of the objection within 30 days. Any comment provided by the Council, and all comments from the parties to the MOA, will be taken into account by the UDOT in reaching a final decision regarding the dispute.
- B. If the Council does not provide comments regarding the dispute within 30 days after receipt of adequate documentation, the UDOT may render a decision regarding the dispute. In reaching its decision, the UDOT will take into account all comments regarding the dispute from the parties to the MOA.
- C. The UDOT's responsibilities to carry out all other actions subject to the terms of this MOA that are not the subject of the dispute remain unchanged. The UDOT will notify all parties of its decision in writing before implementing that portion of the undertaking subject to dispute under this stipulation. The UDOT's decision will be final.
- D. Further, at any time during implementation of the measures stipulated in this agreement should an objection to any such measure be raised by a member of the public, the UDOT

shall take the objections into account and consult as needed with the objecting party, the SHPO, or the Council to resolve the objection.

**VII. AMENDMENTS AND NONCOMPLIANCE:** If any signatory to this MOA, including any invited signatory, determines that its terms will not or cannot be carried out or that an amendment to its terms must be made, that party shall immediately consult with the other parties to develop an amendment to this MOA pursuant to 36 CFR 800.6(c)(7) and 800.6(c)(8). The amendment will be effective on the date a copy signed by all the original signatories is filed with the Council. If the signatories cannot agree to appropriate terms to amend the MOA, any signatory may terminate the agreement in accordance with Stipulation VIV, below.

**VIII. TERMINATION:** If an MOA is not amended following the consultation set out in Stipulation VII and Stipulation VIII, it may be terminated by any signatory or invited signatory. Within 30 days following termination, the UDOT shall notify the signatories if it will initiate consultation to execute an MOA with the signatories under 36 CFR 800.6(c)(1) or request the comments of the Council under 36 CFR 800.7(a) and proceed accordingly.

**IX. EXECUTION:** Execution of this Memorandum of Agreement by the UDOT and the Utah SHPO, and the UDOT, and the submission of documentation and filing of this Memorandum of Agreement with the Council pursuant to 36 CFR 800.6(b)(1)(iv) prior to UDOT's approval of this undertaking, and implementation of its terms, serves as evidence that the UDOT has taken into account the effects of this undertaking on historic properties, and has afforded the Council an opportunity to comment on **PROJECT #: S-115 7(369)309; I-15 Improvements, 600N to Farmington, Salt Lake and Davis Counties, Utah.**

RE: UDOT Project No. S-I157(369)309; I-15 600N to Farmington EIS, Salt Lake and Davis Counties, Utah (PIN 18857).  
Amended Finding of Adverse Effect

Dear Mr. Hansen:

The Utah Department of Transportation (UDOT) is preparing to undertake the subject environmental impact statement (EIS). In accordance with Parts 3.1.1 and 3.2 of the *Memorandum of Understanding Between the Federal Highway Administration and the Utah Department of Transportation Concerning State of Utah's Participation in the Surface Transportation Project Delivery Program Pursuant to 23 USC §327* (renewed May 26, 2022), the UDOT assumes responsibility, assigned by the Federal Highway Administration (FHWA), for ensuring compliance with Section 106 of the NHPA and with Section 4(f) of the DOT Act of 1966, as amended. Also in accordance with the *Third Amended Programmatic Agreement among the FHWA, the Utah State Historic Preservation Officer, the Advisory Council on Historic Preservation, the USACE Sacramento District, and the UDOT Regarding Section 106 Implementation for Federal-Aid Transportation Projects in the State of Utah* (executed August 23, 2017), Section 106 of the National Historic Preservation Act of 1966, as amended (54 U.S.C. § 300101 et seq.), and U.C.A.9-8-404, the UDOT has taken into account the effects of this undertaking on historic properties and is affording the Utah State Historic Preservation Officer (SHPO) an opportunity to comment on the undertaking.

### PROJECT DESCRIPTION

UDOT is preparing an EIS to replace aging infrastructure and improve mobility on I-15 between 600 South in Salt Lake City and the I-15/U.S. 89/Legacy Parkway interchange in Farmington. The EIS will also evaluate potential improvements to interchanges (600 South, I-80 West, 600 North, 1000 North, 2300 North, Beck Street/U.S. 89, 2600 South, 500 South, 400 North, Parrish Lane, 200 West, and I-15/U.S. 89/Legacy Parkway), local cross-streets, and connections to transit and cyclist/pedestrian facilities. The proposed study area is the APE for this project.

UDOT previously consulted with the SHPO on the determination of eligibility (DOE) for architectural and archaeological resources. SHPO provided conditional concurrence on March 22, 2023 (Case No. 23-0339). UDOT also previously consulted with SHPO on the finding of effect (FOE). SHPO provided concurrence on This document is provided as consultation on an amended finding of effect for historic properties within the APE. No new surveys have been conducted and the APE remains unchanged.

### Project Alternatives

The Action Alternative includes the five general-purpose lane and one high-occupancy/toll lane mainline concept combined with the concepts for each of the five geographic areas that passed Level 1 and Level 2 screening. The Action Alternative also includes the following subarea options:

- Farmington 400 West Option
- Farmington State Street Option
- Salt Lake City 1000 North – Northern Option
- Salt Lake City 1000 North – Southern Option

None of these options change impacts to the archeological sites outlined in this project's initial FOE. In terms of architecture, neither the Farmington 400 West or State Street Options will impact the Central Davis Sewage Station located at 1384 S. Frontage Road as indicated in this project's initial FOE. Neither the 1000 North Northern and Southern option will impact the U.S. Bank at 1090 North 500 East in North Salt Lake as indicated in the project's initial FOE.

Additional information about the project alternatives can be found at:

<https://i15eis.udot.utah.gov/study-materials-and-documents/>. Also refer to Appendix 3G Cultural Resource Impact Table attached to this document.

### **ARCHAEOLOGICAL RESOURCES**

A total of 20 archaeological sites were identified within the APE, 10 of which are eligible for the NRHP. However, usually due to reduced historical integrity, a portion of 4 of these sites within the APE have been designated as not contributing to the eligibility of the site. Impacts to archaeological sites have not changed from the 2023 FOE, and to summarize the project's Section 106 impacts on archeological sites:

North Segment Option:

- The impacts to archeological resources in the north segment would be the same for both the Farmington 400 West and the Farmington State Street options. Both options would have *no adverse effect* on one archeological resource, namely 42DV87/42SL300 (Union Pacific Railroad).

South Segment Option:

- The impacts to archeological resources in the south segment would be the same for both the Salt Lake City 1000 North – Northern Option or Salt Lake City 1000 North – Southern Option. Both options would have *no adverse effect* on three archeological resources, namely 42DV87/42SL300 (Union Pacific Railroad), 42DV86/42SL293 (Denver & Rio Grande Western Railroad), and 42SL729 (Historic Trolley Line).

For a description of these impacts, please refer to the Appendix 3G Cultural Resource Impact Table attached to this document. This table will be included with the environmental document prepared for this project.

### **ARCHITECTURAL PROPERTIES**

A historic structures survey conducted for the I-15 project identified previously documented buildings and structures as well as other buildings and structures that could be eligible for listing in the NRHP. Impacts to architectural properties have been reduced since the 2023 FOE, and to summarize the project's Section 106 impacts on historic structures:

North Segment Options

- The impacts to architectural resources in the north segment would be the same for both the Farmington 400 West Option and the Farmington State Street Option. Both options would have an *adverse effect* on four architectural resources, namely 399 W. State Street in Farmington, Clark Lane Historic District in Farmington, 409 South 500 West in Bountiful, and 1090 North 500 East in North Salt Lake. Both options would have no adverse effect on 77 architectural resources.

South Segment Options

- The impacts to architectural resources in the south segment would be the same for both the Salt Lake City 1000 North – Northern Option and the Salt Lake City 1000 North – Southern Option. Both options would have an *adverse effect* on one architectural resource, namely 825 North Warm Springs Road, and would have *no adverse effect* on 26 architectural resources.

For a summary of these impacts, please refer to the Appendix 3G Cultural Resource Impact Table attached to this document. This table will be included with the environmental document prepared for this project.

## SECTION 4(f) EVALUATION

Under Section 4(f), use of a historic property includes permanent incorporation of land into a transportation facility, temporary uses, or constructive uses (i.e., severe proximity impacts). Uses that result in minor impacts without adverse effects are considered to have a *de minimis* impact. *De minimis* impacts are generally small amounts of property acquisition to accommodate project elements without affecting the significant elements of a Section 4(f) property. Uses that result in greater than *de minimis* impacts result in adverse effects to the activities, features, or attributes qualifying a property for protection under Section 4(f). This level of effect is often the result of full property acquisition and demolition of the significant historic features at the property.

However, some temporary impacts to properties are so minimal as to not constitute a use within the meaning of Section 4(f) when the scope of the work is minor and the magnitude of the changes to the Section 4(f) property are minimal. The land would also need to be fully restored to a condition at least as good as that which existed prior to the project. These temporary occupancies are generally the result of temporary construction easements (TCEs) which are utilized for minor actions such as re-grading landscaping to match the new roadway elevation or re-establishing an access point after roadway widening. To summarize this project's 4f impacts on archeological sites:

### North Segment Options:

- The 4f uses of archeological resources in the north segment would be the same for both the Farmington 400 West and the Farmington State Street options. Both of these options would have one use with *de minimis* impact to 42DV87 (Union Pacific Railroad) on one archeological resource, namely 42DV87 (Union Pacific Railroad).
- The 4f uses of architectural resources in the north segment are the same for both the Farmington 400 West and the Farmington State Street options. Both of these options would have 4 uses with greater-than-*de minimis* impact, 30 uses with *de minimis* impacts, and 47 temporary occupancy impacts.

### South Segment Options

- The 4f uses for archeological resources in the south segment would be the same for both the Salt Lake City 1000 North – Northern Option and the Salt Lake City 1000 North – Southern Option. Both of these options would have three uses with *de minimis* impact to 42DV87/42SL300 (Union Pacific Railroad), 42DV86 (Denver & Rio Grande Western Railroad Grade), and 42SL729 (Historic Trolley Line).
- The 4f uses of architectural resources in the south segment would be the same for both the Salt Lake City 1000 North - Northern Option and the Salt Lake City 1000 North - Southern Option. Both of these options would have 1 use with greater-than-*de minimis* impact, 9 uses with *de minimis* impacts, and 17 temporary occupancy impacts.

For a description of these Section 4(f) impacts, please refer to the Appendix 3G Cultural Resource Impact Table attached to this document. This table will be included with the environmental document prepared for this project. A Section 4(f) evaluation is being prepared and will be included with the environmental document prepared for this project. The evaluation discusses the impact by the action alternative and measures taken to minimize harm to the Section 4(f) properties. A copy of the Section 4(f) evaluation will be provided upon request.

## CONSULTATION EFFORTS

Native American consultation was initiated through letters sent to the Ute Indian Tribe of the Uintah and Ouray Reservation, Shoshone-Bannock Tribes, Eastern Shoshone Tribe of the Wind River Reservation, Northwestern Band of Shoshone Nation, Confederated Tribes of the Goshute Reservation, Skull Valley Band of Goshute (sent March 18, 2022). To date, no tribes have responded to this notice. Other participating consulting parties include the Centerville CLG, Salt Lake County CLG and Clark Lane Historical Preservation Association. These parties provided an opportunity to comment on the determinations of eligibility described in this document.

Open house-style public meetings have been held during the NEPA scoping, alternatives development, and draft EIS stages. The public will be notified of the availability of the Final EIS and the Record of Decision.

## SUMMARY

The project has no new impacts for archeology. For architecture, impacts have been reduced and are now numbered at 5 adverse effects and 103 no adverse effects. The finding of effect for the project as whole remains adverse effect.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried out by UDOT pursuant to 23 *USC* §327 and a Memorandum of Understanding dated January 17, 2017, and executed by FHWA and UDOT.

Please review this document and, providing you agree with the findings contained herein, provide written concurrence. Should you have any questions or need additional information, please feel free to contact Liz Robinson at 801-910-2035 / [lizrobinson@utah.gov](mailto:lizrobinson@utah.gov).

Sincerely,

<sup>a</sup> Addresses are sorted from north to south by city, then by eligibility, and then by address starting digit (1 through 9).

Table 3G-3. Archaeological Impacts

Site Number(s) and App. 3H Figure Reference (s)	Site Name	NRHP Evaluation	Section 106 Finding of Effect	Section 4(f) Use/Impact	Nature of Impact	Option(s)
42DV2	Prehistoric Artifact Scatter	Eligible (Criterion D)	No historic properties affected	None	None	—
42DV86/42SL293 (Figure 22)	Denver & Rio Grande Western Railroad	Eligible (Criterion A)	No adverse effect	<i>Use/de minimis</i>	The Action Alternative would have four grade-separated crossings (roads over the railroad tracks). These four grade-separated crossings include reconstructing two existing crossings (a southbound-to-westbound ramp and an eastbound-to-northbound ramp) and constructing two new crossings (a new westbound connection to Interstate 215 [I-215] from U.S. Highway [U.S. 89] and a new eastbound connection from I-215 to U.S. 89). The existing bridges at these crossings are not historic.	<ul style="list-style-type: none"> <li>• Salt Lake City 1000 North—Northern and Southern Options</li> </ul>
42DV89	Historic Earthen Berms/Lake Shore Resort	Eligible (Criterion A)	No historic properties affected	None	None	—
42DV87/42SL300 (Figures 1A, 1B, 3, 4, 5, 6, 7, 20, 22, 23, 25, 30, 32, and 33)	Union Pacific Railroad	Eligible (Criteria A, B, and C)	No adverse effect	<i>Use/de minimis</i>	<p>The Action Alternative would have the following crossings of the Union Pacific Railroad:</p> <ul style="list-style-type: none"> <li>• Reconstructing nine existing grade-separated crossings (road over the railroad tracks). Crossing locations are at State Street in Farmington, Glovers Lane in Farmington, Parrish Lane in Centerville, 400 North in Bountiful, I-215 in North Salt Lake (a southbound-to-westbound ramp and an eastbound-to-northbound ramp), 2300 North in Salt Lake City, 600 North in Salt Lake City, and South Temple in Salt Lake City.</li> <li>• Constructing two new grade-separated shared-use path crossings (shared-use path over the railroad tracks) at the Centerville Community Park and at 200 North in Centerville.</li> <li>• Reconstructing two existing at-grade road and shared-use path crossings at Pages Lane in Centerville and Center Street in North Salt Lake.</li> <li>• Constructing three new grade-separated road crossings (road over the railroad tracks) at I-215 (a new westbound connection to I-215 from U.S. 89 and a new eastbound connection from I-215 to U.S. 89) and at 2100 North in Salt Lake City.</li> <li>• Constructing four underground drainage crossings (drainage pipes under the railroad tracks) at Lund Lane, 1825 North, 1175 North, and Chase Lane in Centerville.</li> </ul> <p>All of these crossings would be considered “no adverse effect” because the railroad alignment and the historic integrity of the railroad would not be changed as a result of the road or drainage crossings.</p>	<ul style="list-style-type: none"> <li>• Farmington 400 West</li> <li>• Farmington State Street</li> <li>• Salt Lake City 1000 North—Northern and Southern Options</li> </ul>
42DV93	Historic Trash Deposit	Eligible (Criterion D)	No historic properties affected	None	None	—
42DV126/42SL489	Historic Oil Drain	Eligible but not contributing (Criterion A)	No historic properties affected	None	None	—
42DV187	Historic Oakridge Golf Course	Eligible (Criterion A)	No historic properties affected	None	None	—
42DV197/42SL513	Historic Sewage Canal	Eligible but not contributing (Criterion A)	No historic properties affected	None	None	—
42SL718	Denver & Rio Grande Western Historic Railroad Repair Yard	Eligible but not contributing (Criteria A, C, and D)	No historic properties affected	None	None	—
42SL729 (Figure 33)	Historic Trolley Line	Eligible but not contributing (Criterion A)	No adverse effect	<i>Use/de minimis</i>	The Action Alternative would include reconstructing the existing Interstate 15 grade-separated crossing over the historic trolley line near 200 South in Salt Lake City.	<ul style="list-style-type: none"> <li>• Salt Lake City 1000 North—Northern and Southern Options</li> </ul>

RE: 18857\_ I-15 EIS Amended FOE

For future correspondence, please reference Case No. 24-0756

Dear Ms. Robinson,

The Utah State Historic Preservation Office received your submission and request for our comment on the above-referenced project on March 21, 2024. Based on the information provided to our office, we concur with your determinations of eligibility and with an overall finding of Adverse Effect for the proposed undertaking. We look forward to further consulting with you and other potentially interested parties to address the effects of the project and to develop an MOA.

This information is provided to assist with Section 106 responsibilities as per §36CFR800. If you have questions, please contact me at (801) 245-7239 or by email at [clhansen@utah.gov](mailto:clhansen@utah.gov).

Sincerely,

Christopher Hansen  
Preservation Planner/Utah SHPO
